Notes to the Financial Statements	10

The directors are pleased to present its statement to the member together with the audited financial statements of Proteus Petrochemicals Private Limited for the financial year ended 31 March 2016.

1. OPINION OF THE DIRECTORS

In the opinion of the directors,

(a) the accompanying statement of financial position, statement of comprehensive income, statement of changes in equity and statement of cash flows together with notes thereto are drawn up so as to give a true and fair view of the financial position of the Company as at 31 March 2016 and the financial performance, changes in equity and cash flows of the Company for the year ended on that date in accordance with the provisions of the Singapore Companies Act, Chapter 50 and Singapore Financial Reporting Standards; and

(b) at the date of this statement, the ability of the Company to pay its debts as and when they fall due depends on the continual financial support of its holding company.

2. DIRECTORS

The directors of the Company in office at the date of this report are :

Maya Devi D/O S Renganathan
Muthuramalingam Pazhaniandy Pillai

3. ARRANGEMENTS TO ENABLE DIRECTOR TO ACQUIRE SHARES AND DEBENTURES

Neither at the end of nor at any time during the financial year was the Company a party to any arrangement whose object is to enable the director of the Company to acquire benefits by means of the acquisitions of shares or debentures in the Company or any other body corporate.

4. DIRECTORS' INTERESTS IN SHARES AND DEBENTURES

Except as disclosed in the financial statements, no director who held office at the end of the financial year had interests in shares, share options, warrants or debentures of the Company, or of related corporations, either at the beginning of financial year or at the end of financial year.

5. OPTIONS TO TAKE UP UNISSUED SHARES

During the financial year, no option to take up unissued shares of the Company was granted.

6. **OPTION EXERCISED**

During the financial year, there were no shares of the Company issued by viture of the exercise of options to take up unissued shares.

7. **UNISSUED SHARES UNDER OPTION**

At the end of the financial year, there were no unissued shares of the Company under option.

8. **INDEPENDENT AUDITOR**

The independent auditor, Sashi Kala Devi Associates has expressed its willingness to accept reappointment as auditor.

Independent Auditor's Report
to the members of Proteus Petrochemicals Private Limited
(Co. Reg. No. 200606866R)

Report on the Financial Statements

We have audited the accompanying financial statements of Proteus Petrochemicals Private Limited (the "Company"), which comprise the statement of financial position as at 31 March 2016, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Singapore Companies Act, Chapter 50 (the "Act") and Singapore Financial Reporting Standards, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independent Auditor's Report
to the members of Proteus Petrochemicals Private Limited – continued
(Co. Reg. No. 200606866R)

Opinion

In our opinion, the financial statements are properly drawn up in accordance with the provisions of the Act and Singapore Financial Reporting Standards so as to give a true and fair view of the financial position of the Company as at 31 March 2016 and the financial performance, changes in equity and cash flows of the Company for the year ended on that date.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

The accompanying notes form an integral part of the financial statements.

These notes are an integral part of and should be read in conjunction with the accompanying financial statements.

1. CORPORATE INFORMATION

The Company is a private company limited by shares incorporated and domiciled in Singapore. Its immediate holding company is Certus Investment & Trading Limited, incorporated in the Republic of Mauritius and its ultimate holding company is Tamilnadu Petroproducts Limited, incorporated in India.

The registered office of the Company is located at 31 Cantonment Road, Singapore 089747 and its principal place of business is located at 8, Temasek Boulevard, # 17-02/03, Suntech Tower 3, Singapore 038988.

The principal activities of the Company are those of manufacturing of petrochemical products. The Company remains dormant during the current financial year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) ***Basis of preparation***

The financial statements have been prepared in accordance with Singapore Financial Reporting Standards (FRS).

The financial statements have been prepared on the historical cost basis except where otherwise described in the accounting policies below.

The financial statements are presented in United States Dollar (USD or US$) and all values are rounded to the rounded to the nearest one-dollar unless otherwise stated.

The accounting policies adopted are consistent with those used in the previous financial year except in current financial year, the Company has adopted all applicable new and revised FRS and Interpretations of FRS (“INT FRS”) that are relevant to its operations and effective for the current financial year. The adoption of these new and revised FRS and INT FRS did not have any effect on the financial performance or position of the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(a) Basis of preparation (continued)

Standards issued but not yet effective

The Company has not adopted the following standards and interpretations which are potentially relevant to the Company that have been issued but not yet effective:

	Effective date (Annual periods beginning on or after)
FRS 115 Revenue from Contracts with Customers	1 January 2017
- FRS 108 Financial Instruments	1 January 2018
- Amendments to FRS 1 Disclosures Initiative	1 January 2016
- Amendments to FRS 7 Statement of Cash Flow	1 January 2017
Improvements to FRSs 2014 (November 2014)	
- Amendment to FRS 107 Financial Instrument : Disclosures	1 January 2016

The directors expect that the adoption of the standards and interpretations above will have no material impact on the financial statements in the period of initial application.

(b) Significant accounting estimates and judgements

The preparation of the Company's financial statements requires management to make judgements, estimates and assumption that affect the reported amounts of revenue, expenses, assets, liabilities, and the disclosure of contingent liabilities at the end of each reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

- *Key sources of estimation uncertainty*

  There were no material key assumption concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period.

- *Judgement made in applying accounting policies*

  Management is of the opinion that there is no material judgements made by management in the process of applying the Company's accounting policies that have the most significant effect on the amounts recognised in the financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) Functional and foreign currency (continued)

The management has determined the currency of the primary economic environment in which the Company operates i.e. functional currency, to be USD.

Foreign currency transactions

Transactions in foreign currencies are measured in USD and are recorded on initial recognition at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are re-translated to the functional currency at the rate of exchange ruling at the end of the reporting period. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of initial recognition. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognised in profit or loss.

*(c) **Plant and equipment***

All items of plant and equipment are initially recorded at cost. Subsequent to recognition, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. The cost of an item of plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Depreciation is computed on a straight-line basis over the estimated useful lives of the assets as follows:

Office equipment	-	3 years

Fully depreciated assets are retained in the financial statements until they are no longer in use.

For acquisition and disposals of plant and equipment, depreciation is provided in the month of acquisition and no depreciation is provided in the month of disposal.

The carrying values of plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The residual value, useful life and depreciation method are reviewed at each financial year-end, and adjusted prospectively, if appropriate.

An item of plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset is included in the profit or loss in the year the asset is derecognised.

(e) Financial assets

Initial recognition and measurement

Financial assets are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instrument. The Company determines the classification of its financial assets at initial recognition.

When a financial assets are recognised initially, an entity shall measure it at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of financial assets.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

(i) *Financial assets at fair value through profit or loss*

Financial assets at fair value through profit or loss include financial assets held for trading. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. This category includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by FRS 39. Derivatives including separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

The Company has not designated any financial assets upon initial recognition at fair value through profit or loss.

Subsequent to initial recognition, financial assets at fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in fair value of the financial assets are recognised on profit or loss. Net gains or net losses on financial assets at fair value through profit or loss include exchange differences and interest.

(ii) *Held-to-maturity investment*

Non-derivative financial assets with fixed or determinable payments and fixed maturity are classified as held-to-maturity when the Company has the positive intention and ability to hold the investments to maturity. Subsequent to initial recognition, held-to-maturity investments are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the held-to-maturity investments are derecognised or impaired, and through the amortisation process.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(e) Financial assets (continued)

Subsequent measurement (continued)

(iii) *Loans and receivables*

Non-derivative financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, and through the amortisation process.

Loan and receivables comprise cash and cash equivalents and receivables from a related party.

(iv) *Available-for sale financial assets*

Available-for-sale financial assets include equity and debt securities. Equity investment classified as available-for-sale are those, which are neither classified as held for trading nor designated at fair value through profit or loss.

After initial recognition, available-for-sale financial assets are subsequently measured at fair value. Any gains or losses arising from changes in the fair value of the financial asset are recognised in other comprehensive income, except that impairment losses, foreign exchange gains and losses on monetary instruments and interest calculated using the effective interest method are recognised in profit or loss. The cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment when the financial asset in derecognised.

De-recognition

A financial asset is derecognised when the contractual right to receive cash flows from the asset has expired. On de-recognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income is recognised in profit or loss.

Regular way purchase and sale of a financial asset

All regular way purchases and sales of financial assets are recognised or derecognised on the trade date i.e., the date that the Company commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace concerned.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(f) Impairment of financial assets

The Company assesses at each reporting date whether there is any objective evidence that a financial asset is impaired.

(i) *Financial assets carried at amortised cost*

For financial assets carried at amortised cost, the Company first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Company determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss on financial assets carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. If a loan has variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account. The loss is recognised in the profit or loss.

When the asset becomes uncollectible, the carrying amount of impaired financial asset is reduced directly or if an amount was charged to the allowance account, the amount charged to the allowance account is written off against the carrying value of the financial asset.

To determine whether there is objective evidence that an impairment loss on financial assets has been incurred, the Company considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss in reversed to the extent that the carrying value of the asset does not exceed its amortised cost at the reversal date. The amount of reversal is recognised in profit or loss.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(f) Impairment of financial assets (continued)

(ii) *Financial assets carried at cost*

If there is objective evidence that an impairment loss on a financial asset carried at cost has been incurred (such as significant adverse changes in the business environment where the issuer operates, probability of insolvency or significant financial difficulties of the issuer) the impairment loss is recognised and the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed in subsequent periods.

(iii) *Available-for-sale financial assets*

In the case of equity investments classified as available-for-sale, objective evidence of impairment include (i) significant financial difficulty of the issuer or obligor, (ii) information about significant changes with an adverse effect that have taken place in the technological market, economic or legal environment in which the issuer operates, and indicates that the cost of the investment in equity instrument may not be recovered; and (iii) a significant or prolonged declined in the fair value of the investment below its cost. 'Significant' is to be evaluated against the original cost of the investment and 'prolonged' against the period in which the fair value has been below its original cost.

If an available-for-sale financial asset is impaired, an amount comprising the difference between its cost (net of any principle payment and amortisation) and its current fair value, less any impairment loss previously recognised in profit or loss, is transferred from other comprehensive income and recognised in profit or loss. Reversals of impairment losses in respect of equity instrument are not recognised in profit or loss; increase in their fair value after impairment are recognised directly in other comprehensive income.

(g) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that a non-financial asset, may be impaired. If any such an indication exists, or when an annual impairment testing for an asset is required, the Company makes an estimate of the asset's recoverable amount.

For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash inflows that are largely independent of those from other assets. If this is the case, the recoverable amount is determined for the cash generation unit to which the asset belongs.

The difference between the carrying amount and recoverable amount is recognised as an impairment loss in profit or loss, unless the asset is carried at revalued amount, in which case, such impairment loss is treated as a revaluation decrease.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) Financial liabilities

Initial recognition and measurement

Financial liabilities are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instrument. The Company determines the classification of its financial liabilities at initial recognition.

When a financial liability is recognised initially, an entity shall measure it at its fair value plus, in the case of other financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of financial liability.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

(i) *Financial liabilities at fair value through profit or loss*

Financial liabilities at fair value through profit or loss include financial liabilities held for trading. Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term.

Subsequent to initial recognition, financial liabilities at fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in fair value of the financial liabilities are recognised in profit or loss.

The Company has not designated any financial liabilities upon initial recognition at fair value through profit or loss.

(ii) *Financial liabilities* at amortised cost

After initial recognition, financial liabilities that are not carried at fair value through profit or loss are subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an exiting liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the profit or loss.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(i) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is presented in the statement of financial position, when and only when, there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or realise the assets and settle the liabilities simultaneously.

(j) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and at bank.

(k) Other payables

Other payables are non-interest bearing have an average term of six months.

(l) Provisions

Provision are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, and when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

(m) Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured regardless of when the payment is made. Revenue is measured at the fair value of consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes. The following specific recognition criteria must also be met before revenue is recognised:

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Interest income

Interest income is recognised using the effective interest method.

(n) Share capital

Ordinary shares

Proceeds from issuance of ordinary shares are recognised as share capital in equity. Incremental costs directly attributable to the issuance of ordinary shares are deducted against share capital.

(o) Taxes

(i) Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the end of the reporting period.

Current income taxes are recognised in the profit or loss except to the extent that tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred tax

Deferred tax is provided using the liability method on temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward for unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Deferred tax assets and liabilities are measured using the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the end of the reporting period.

(o) Taxes (continued)

(ii) Deferred tax

Deferred tax relating to items recognised outside profit or los is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxed relate to the same taxable entity and the same taxation authority.

(p) Related parties

A related party is defined as follows:

(a) A person or a close member of that person's family is related to the Company if that person:
- (i) Has control or joint control over the Company;
- (ii) Has significant influence over the Company; or
- (iii) Is a member of the key management personnel of the Company or of a parent of the Company.

(b) An entity is related to the Company is any of the following conditions applies:
- (i) The entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
- (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
- (iii) Both entities are joint ventures of the same third party;
- (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity;
- (v) The entity is a post-employment benefit plan for the benefit of employees of either the Company or an entity related to the Company. If the Company is itself such a plan, the sponsoring employers are also related to the Company;
- (vi) The entity is controlled or jointly controlled by a person identified in (a);
- (vii) A person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
- (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Company or to the parent of the Company.

At 31 March 2016	--	--

4. PREPAYMENT

On 1 November 2010, the Company entered into an Engineering Agreement with a vendor, UOP LLC ("UOP"). Under the agreement, UOP is to provide engineering design specification services in relation to the Company's project to build a Normal Paraffin Complex ("NP plant") at Jurong Island in Singapore.

As of 31 March 2012, the Company made a total prepayment of Engineering design specification services of USD 2,000,000 to UOP. As of that date, the project in Singapore was terminated and UOP had agreed to maintain the engineering design specifications until 31 December 2016 (the "Project Suspension Period") while the Company continues to look for another location. The engineering design specification services will be resumed if the project is reactivated before the end of the project suspension period.

However, in the event that at the end of the project suspension period, the Company is unable to re-activate the project, the prepayment of Engineering design specification services would be expensed off to the profit and loss account.

The directors of the Company have represented that the project will not be reactivated and therefore the prepayment was written off at end of the reporting period.

5. AMOUNT DUE FROM A RELATED PARTY

The amount due is non-trade, unsecured, interest at bearing 0.32 % (2015 : 0.32 %) per annum and settled during the financial year.

6. CASH AND CASH EQUIVALENTS

Receipt from third party*	--	900,000
Sundry payables**	606,372	603,787
	610,168	1,507,583

* Included in other payable is US$900,000 (2015: US$900,000) received from a third party who was a partner (the "Project Partner") to the NP Plant project. The amount was received pursuant to the final settlement agreement between the Company and the Project Partner when the NP plant project in Singapore was terminated. This represents 45 % of the prepayment made to UOP for engineering design specification services in relation to the Company's project to build a Normal Paraffin Complex ("NP plant") at Jurong Island in Singapore (Note 5).

Pursuant to the settlement agreement, in the event that the project reactivated in another location, and the Project Partner is not the partner in the reactivated project, the Company has to repay the US$900,000 to the Project Partner. This amount was written back since the project is unable to be reactivated at the end of the financial reporting period.

** Included in sundry payables in US$606,372, which confirmations to ascertain the completeness and existence are not been able to carry out due to the management has disputes with these amounts and do not agreed on circulation to be done.

14. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company is exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include foreign currency risk and liquidity risk. The Company's risk management policies focus on the unpredictability of financial markets and seek to, where appropriate, minimise potential adverse effects on the financial performance of the Company. The Company does not have any written financial risk management policies and guidelines and there has been no change to the company's exposure to these financial risks or the manner in which it manages and measures the risks.

14. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

The following sections provide details regarding the Company's exposure to the financial risks associated with financial instruments held in the ordinary course of business and the objectives, policies and processes for the management of these risks.

(i) ***Foreign currency risk***

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. Currency risk arises when transactions are denominated in foreign currencies.

The Company is exposed to movements in foreign currency exchange rates arising from cash and cash equivalent and payables, primarily with respect to Singapore dollar (SGD). However, the Company does not use any financial derivatives such as foreign currency forward contracts, foreign currency options or swaps or hedging purposes.

Sensitivity analysis for foreign currency risk

No sensitivity analysis is prepared as the Company does not expect any material effect on the Company's profit or loss and equity arising from the effects of reasonably possible changes to interest rates on interest bearing financial instruments at the end of the reporting period.

(ii) ***Liquidity risk***

Liquidity risk is the risk that the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Company's exposure to liquidity risk arises primarily from possible mismatches of the maturities of financial assets and liabilities. The Company manages its liquidity risk by ensuring the availability of adequate funds to meet all its obligations based on the confirmed financial support of its immediate holding company.

In the management of its liquidity risk, the Company monitors and maintains a level of cash deemed adequate by management to finance the operations and mitigate the effects of fluctuation in cash flow.

The maturity profile of the Company's financial assets and liabilities at the end of the reporting period based on contractual undiscounted repayments obligations is within one year.

15. CLASSIFICATION OF FINANCIAL ASSETS AND LIABILITIES

The following table summaries the carrying amount of financial assets and liabilities recorded at the end of the reporting year by FRS 39 categories:

	2016 US$	**2015** US$
Loans and receivables		
Amount due from a related party	--	600,000
Cash and cash equivalents	620,114	31,033
	620,114	631,033
Financial liabilities at amortized cost		
Other payables	610,168	1,507,583
Amount due to immediate holding company	--	5,925,000
	610,168	7,432,583

16. FAIR VALUE OF ASSETS AND LIABILITIES

The fair value of financial instrument is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date.

The carrying amount of financial assets and liabilities are reasonable approximation of fair values, due to their sort-term nature.

The Company does not anticipate that the carrying amounts recorded at the end of the reporting period would be significantly different from the values that would eventually be received or settled.

At the end of the reporting period, the Company does not have any other financial instruments carried at fair value.

17. CAPITAL MANAGEMENT

The primary objective of the Company's capital management is to safeguard the Company's ability to continue as a going concern by means of funding and financial support from its immediate holding company in order to support its business operations.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may acquire further funding from its immediate holding company or issue new shares. No changes were made in the objectives, policies or processes during the year/period ended 31 March 2016 and 31 March 2015. The Company is not subjected to externally imposed capital requirements.

18. AUTHORISATION OF FINANCIAL STATEMENTS

The financial statements of the year ended 31 March 2016 were authorized for issue in accordance with a resolution of the directors on 30 April 2016.
